

iZ3D Monitors are Now Supported by the Vizard Virtual Reality Toolkit from WorldViz

Great 3D Monitors Deserve Great 3D Content

San Diego, Calif., October 23, 2008 -- iZ3D, LLC, designer, developer, and pioneer of advanced 3D visualization systems, is pleased to announce that the Vizard Virtual Reality Toolkit, known for making interactive 3D content creation easy, now natively supports iZ3D monitors and drivers. Vizard, made by the virtual reality solution provider WorldViz, allows even beginners to build complete stereoscopic 3D worlds and populate them with built-in avatars.

"With the fast growing adoption of 3D viewing comes the need for easy to use applications that allow content creators the freedom to create, enhance and enjoy 3D digital creations," says Peter Schlueer, President of WorldViz. "The Vizard Toolkit with its simple scripting interface enables users to instantly build 3D worlds and avatars, plus import 3D and multimedia resources. Vizard lets you publish these 3D worlds royalty-free as executables, empowering you to create applications at low cost and distribute them widely. We are pleased to be able to work with iZ3D to provide the community a compatible medium for 3D content."

As a virtual reality development interface, Vizard's Python based scripting language makes 3D programming efficient and easy. Vizard also allows users to reap the knowledge base of a vividly active 10-year old user community. Please visit <http://www.worldviz.com/products/vizard/index.html> for more information.

"iZ3D is a pioneer in developing great 3D imaging software drivers and hardware for the gaming community. We have been impressed by the robustness of the Vizard content creation software for the wide variety of popular stereoscopic 3D displays, including 3D monitors, peripheral input devices and game pads," remarked Bob Eminian, CMO for iZ3D, LLC.

iZ3D offers the first S-3D drivers that feature a user-friendly interface, a flexible per game profile system and is compatible with popular dual output cards. iZ3D's drivers are optimized to take advantage of Intel's(R) latest Core(TM) 2 Duo and Intel(R) Core(TM) 2 Quad processor technologies. The drivers also support Microsoft(R) DirectX(R) 8 and 9 graphics in both Windows(R) XP and Microsoft(R) Windows Vista(TM). OpenGL Quad-Buffer and Dual-Output features come with a 30-day free trial.

About WorldViz

WorldViz is an industry leader in interactive virtual reality solutions. The company's flagship products are VIZARD, the VR communities favored interactive 3D content creation software, and PPT X4, the most cost effective wide-area tracking system currently available. WorldViz provides high quality, low-cost immersive 3D products to researchers, educators, designers, manufacturers, and other professionals, integrating all common VR products on the market and delivering complete turnkey solutions. For more information please contact Phone +1-805-966-0786 or e-mail contact@worldviz.com

About iZ3D, LLC

iZ3D™ LLC is a leading innovator of 3D stereoscopic viewing display solutions. In addition to the design and marketing of 3D LCD displays, the company enables 3D content creation, and promotes the accelerated proliferation of 3D for entertainment and professional applications.

To present an uncompromised 3D experience, company's development approach to 3D stereoscopic viewing includes optimizing solutions for gaming, home entertainment, and professional applications. Each solution is compatible with multiple graphics cards and includes iZ3D high-performance LCD displays, lightweight passive polarized glasses, and blazingly fast software.

The company is also developing next generation solutions and enabling content for home entertainment and professional applications needing 3D displays to view visually rich movies, photos, and 3-dimensional graphics with amazing depth, brightness, and resolution.

iZ3D was formed as joint venture of Taiwan-based Chi Mei Optoelectronics, a worldwide leader in TFT-LCD manufacturing and Neurok Optics LLC, a US-based 3D technology developer and marketing company. The company distributes its products directly at the iZ3D online store and through major online and retail outlets. Please visit www.iz3d.com or call 858.646.3015 for more information.
