

## Inside the November Newsletter:

### WorldViz at I/ITSEC Orlando, FL Development Seminar for VR Applications Holiday Schedule

---

#### WorldViz at I/ITSEC

Next week, December 1-4, visit our booth #4115 to experience WorldViz's new products and demos at this year's Interservice/Industry Training, Simulation & Education Conference (I/ITSEC) in Orlando, Florida.

#### HMD based Training Solution

Visit WorldViz at the show floor and experience HMD based revolutionary multi-user defense training technology in a shockingly realistic fully immersive virtual Iraq world. Our scalable real-time PPT motion tracking system will track you smoothly across huge areas. Interact live with digital soldiers, practice saving lives in a time critical rescue mission, and freely roam around in a variety of fascinating high-fidelity virtual environments.

#### Workflow from CAD to Real-Time Vizard Apps

WorldViz will demo a powerful workflow of integrating transformed 3D CAD models into WorldViz's real-time virtual reality toolkit. Disassemble and reassemble an actual diesel engine in real-time, with a direct 'button click' export pipeline from all leading CAD software tools directly into Vizard. In addition to the demos at the WorldViz booth, this workflow will be demonstrated with full-body motion capture at the Motion Analysis booth #1147 and at Anark booth #210.

I/ITSEC 2008, the Interservice/Industry Training, Simulation and Education Conference, December 1-4, Orlando, FL, USA.

#### Development Seminar for VR Applications

WorldViz is hosting and conducting a Development Seminar for VR Applications. This Five-Day Short Course will be held January 26-30, 2009 and has a cost of \$3,900 per attendee (hotel accommodations included). The seminar will be held in Santa Barbara, CA.

Intensive training includes:

- Fundamentals of immersive virtual environments
- 3D model and avatar creation
- Vizard programming
- Immersive methodologies and protocols
- Individual projects

You can view the online [schedule](#) and preliminary information. Early registration is advised as space is limited. Enrollment and payment is requested by December 5, 2008. Please contact Phil Schlageter at +1-805-966-0786, extension 219, to reserve space or send an email to [schlageter@worldviz.com](mailto:schlageter@worldviz.com).

Attendance confirmations will be sent shortly after December 10, 2008. A minimum of ten participants is required in order for the Seminar to take place. The Seminar will not have more than twelve participants.

---
